Irvine, CA 92618, USA

Cybernet Manufacturing’s Client Data Protection Procedure

Cybernet Manufacturing has a client data protection procedure in place to ensure Protected Health Information is not copied, reproduced, or transmitted during Cybernet Manufacturing’s possession. Below are important information and disclaimers regarding the procedure:

- 1) Upon receiving any units, Cybernet Manufacturing will immediately conduct a complete wipe of all data from the unit. This procedure is conducted prior to physically removing the storage device, or connecting to any networks and/or internet.
- 2) The method of which Cybernet Manufacturing leverages to wipe all data from the unit is using Department of Defense (DoD) 5220.22-M software sanitation method. This will ensure every bit of data cannot be copied, reproduced, or transmitted.
- 3) Due to the nature of the client data protection procedure, **CYBERNET MANUFACTURING IS NOT RESPONSIBLE FOR ANY DATA LOSS.**
- 4) The customer **IS SOLELY RESPONSIBLE** to backup any and all data prior to returning back to Cybernet Manufacturing for any service or repair. Once a unit is subject to Cybernet Manufacturing’s client data protection procedure, **ALL DATA WILL BE LOST AND WILL NOT BE RECOVERABLE.**
- 5) Upon completion of Cybernet Manufacturing’s client data protection procedure, the unit will be returned with one of the following, per customer’s request:
 - a. Custom image provided by customer.
 - b. Cybernet Manufacturing’s standard software image.
 - c. No data.
