Cybernet iOne S24 & S22

24" & 22" Touchscreen All In One PCs

Powerful All-in-One Desktops with VESA Mount

The Cybernet iOne S24 and S22 are powerful business machines that can be used with a standard desktop stand or can be VESA mounted nearly anywhere. Featuring the Intel Skylake processor series and up to 32GB of RAM, these units can handle any job thrown at them.
Built for Business

Intel Core Processor

The Cybernet iOne S24 and S22 come with a powerful Intel Skylake processor, optional NVIDIA GeForce GPU, and up to 32GB of RAM, making these powerhouse business computers.

Engineered for Reliability

All of our enterprise computers are constructed with industrial grade components, resulting in a less than 2% failure rate, much better than a standard commercial grade PC.
VESA Compatible

Use a standard desktop stand or take advantage of built in VESA 75/100 compatibility to mount to a wall, cart or virtually anywhere else.

RAID 1

Keep Your Data Safe

- The iOne S24 & S22 support dual hard drive and RAID setup for data protection and redundancy.

- Both of these units feature an optional internal UPS that lasts up to 5 hours to safely save work and shut down properly in the event of a power outage.

- Cybernet's computers have an IP65 rated sealed front bezel to protect against liquid and dust ingress.

Optional Integrated Security Features

Integrate optional security features like RFID, smart card, and fingerprint readers directly into either unit for advanced security. Manage authorized users, set up secure sign-in for testing, or simply turn every workstation into a time clock for easier labor tracking.

Built with Customization & Compatibility in Mind

- Windows 7, 10, IoT, or Linux
- Optional 5.0 Megapixel Webcam
- 75/100mm VESA Mounting
- 4 x USB 3.0 Ports, 2 x USB 2.0
